100 pets - Three Friends

In the way that you help us you're not asking for more
can I see your collection in boxes on the floor
it's only really your words and mind that matter to me now
our connection in time did end there, goodbye

I have seen three close friends, the day remains with me

In the way that you reason you're not asking for more
your trouble here unspoken you are double that you seem
you practice your reaction so well I could hardly be sure
our connection in time did end there, goodbye

I have seen three close friends, the day remains with me
