## 100 pets - Hungry Bear

Weary eyed people spy  
have you got my number  
dancing through the turnstile  
can you catch me with your silver tongue  
forever divide, collect and find  
the changing light has you  
in its sight from where you are  
its only time that you fear

Twist around the new one found  
you feel like a hungry bear  
every day actions sway  
could you simplify if you tried  
forever divide, collect and find  
the changing light has you  
in its sight from where you are  
its only time that you fear
